INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Summit Equities, Inc.

We have audited the accompanying statement of financial condition of Summit Equities, Inc. (the "Company") as of December 31, 2007. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Summit Equities, Inc. as of December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENT

1. Nature of operations and summary of significant accounting policies (continued)

Income Taxes

The Company is not liable for federal or most state income taxes as the stockholders have elected to treat the Company as an "S" Corporation for federal and state income tax purposes. As such, the Company's stockholders are generally liable for taxes on corporate income and receive the benefit from corporate loss.

The Company complies with Statement of Financial Accounting Standards No. 109 ("SFAS 109"), "Accounting for Income Taxes," which requires an asset and liability approach to financial accounting and reporting for state income taxes. Deferred state income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, and based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount considered more likely than not to be realized.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In accordance with industry practice and regulatory requirements, the Company and the clearing broker monitor collateral on the customers' accounts.

9. Concentrations of credit risk

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

10. Exemption from Rule 15c3-3
